Junhyung Kim

Seoul, Republic of Korea | at100@g.skku.edu | Bellissimo-AI | Bellissimo-AI | Bellissimo-AI

Profile

Undergraduate student majoring in Artificial Intelligence at Sungkyunkwan University.

Research Interest

- Video Understanding
- Multimodal Fusion

Education

Sungkyunkwan University, Seoul, Republic of Korea — *Mar 2023 – Present*
Bachelor of Science in Applied Artificial Intelligence

- GPA: 4.32/4.5 (Overall), 4.44/4.5 (Major)

Research Experience

Seoul Nation University, Seoul, Republic of Korea — *Mar 2026 – Present*
Research Intern (Advisor: Joonseok Lee)
Visual Information Processing Lab

- Conducted research on video understanding and multimodal fusion.

Sungkyunkwan University, Seoul, Republic of Korea — *Jul 2025 – Jan 2026*
Research Intern (Advisor: YunSeok Choi)
Data & Language Intelligence Laboratory

- Conducted research on large language models and multimodal fusion.

Sungkyunkwan University, Seoul, Republic of Korea — *Dec 2024 – Jul 2025*
Research Intern (Advisor: Daeho Lee)
Digital Environment Human Behavior Laboratory

- Conducted research on predictive modeling using natural language processing.

Honors & Awards

Dean's List Award, College of Computing and Informatics, Sungkyunkwan University *Nov 2026*
High Scholastic Achievement

- Recognized for outstanding academic performance in the Spring 2026 semester.
- Ranked in the top 1% of students.

CEO Award, GS E&R, AI Competition *Sep 2026*
3rd Wind Power Generation Forecasting AI Competition – BARAM 2026

- Developed a wind power generation forecasting model using weight-space editing with a full-parameter task vector.
- Awarded for ranking in the Top 1%

Dean's Award, College of Computing and Informatics, Sungkyunkwan University, Convergence Academic Festival *Jun 2026*
Designing Tomorrow's Future, The New Blueprint

- Authored a research paper on a framework for verifying AI-generated and manipulated evidence and quantifying related damages.
- Awarded 3rd place

Dean's List Award, College of Computing and Informatics, Sungkyunkwan University *May 2026*
High Scholastic Achievement

- Recognized for outstanding academic performance in the Fall 2025 semester.
- Ranked in the top 1% of students.

Director's Award, Center for Innovative Higher Education, Sungkyunkwan University, Research Paper Competition *Jan 2026*
Co-Deep Learning Project, 2025

- Authored a research paper on a reliability-aware LiDAR–Camera BEV fusion method for robust 3D object detection under diverse driving conditions.
- Awarded 3rd place

Best Paper Award, Conference Paper Competition *Dec 2025*
Fall Conference of the Korean Regional Science Association (KRSA), 2025

- Authored a research paper on residents' perception differences according to social mix housing allocation strategies.
- Awarded 1st place

President's Award, Korea University AI Academic Society, AI Competition *Nov 2025*
Datathon of the National Center of Excellence in Software, Korea University, 2025

- Developed a video summarization model using an ensemble of Global-to-Local and Local-to-Global attention mechanisms.
- Awarded 2nd place

Dean's Award, College of Education, Sungkyunkwan University, AI Hackathon *Oct 2025*
5th Sungkyunkwan University AI Hackathon, 2025

- Developed a high-fidelity tax advisory AI system integrating retrieval-augmented generation and self-rewarding large language model techniques.
- Awarded 5th place

Excellence Award, Korea Energy Agency (KEA), AI Competition *Sep 2025*
Power Consumption Forecasting AI Competition, 2025

- Developed a large-scale electricity forecasting architecture combining hierarchical seasonal analysis and cluster-based representation learning.
- Awarded 2nd place out of 937 teams (Top 0.2%)

President's Award, Institute for Information & Communications Technology Planning & Evaluation (IITP), AI Competition *Aug 2025*
SW-Centered University Digital Competition: AI Sector, 2025

- Developed a multi-phase AI system for detecting LLM-generated text, integrating document-to-paragraph self-distillation and LLM-based data augmentation.
- Awarded 3rd place out of 271 teams (Top 1%)
- Winner of the Popularity Award

Chairman's Award, DB Kim Jun Ki Cultural Foundation, Research Paper Competition *May 2025*
15th DB Insurance & Finance Contest, 2025

- Authored a research paper applying sentiment analysis to bond investment behavior.
- Awarded 5th place out of 546 teams (Top 0.9%)

Commissioner's Award, Korea Intellectual Property Office, Idea Competition *Aug 2023*
National Defense Conundrum Solution Idea Competition

- Designed an AI-based system for mitigating acoustic noise in naval propulsion and maneuvering.
- Awarded 1st place

Scholarship

Presidential Science Scholarship, Engineering *Mar 2025 - Present*
President of the Republic of Korea

- Selected as one of 60 outstanding science and engineering students nationwide to receive full-tuition support and research funding.

Academic Excellence Scholarship for 2024 Spring Semester *Aug 2024*
College of Computing and Informatics, Sungkyunkwan University

- Achieved a 4.50/4.50 GPA for 17 Credits.

Student Success Scholarship (Leader) *Feb 2024*
Sungkyunkwan University

- Granted in recognition of leadership, initiative, and student engagement.

YulGok Scholarship *Mar 2023 – Feb 2025*
Sungkyunkwan University

- Awarded for 4 consecutive semesters based on outstanding academic achievement at admission.
