

Junhyung Kim

📍 Seoul, Republic of Korea ✉ at100@g.skku.edu 🎧 Bellissimo-AI in Bellissimo-AI 🎧 Bellissimo-AI

Profile

Undergraduate student majoring in Artificial Intelligence at Sungkyunkwan University.

Research Interest

- Large Language Models
- Multimodal Fusion

Education

Sungkyunkwan University, Seoul, Republic of Korea *Mar 2023 – Present*
Bachelor of Science in Applied Artificial Intelligence
 ◦ GPA: 4.32/4.5 (Overall), 4.44/4.5 (Major)

Research Experience

Sungkyunkwan University, Seoul, Republic of Korea *Jul 2025 – Present*
Undergraduate Researcher (Advisor: YunSeok Choi)
Data & Language Intelligence Laboratory [🔗](#)
 ◦ Conducted research on large language models and multimodal fusion.

Sungkyunkwan University, Seoul, Republic of Korea *Dec 2024 – Jul 2025*
Undergraduate Researcher (Advisor: Daeho Lee)
Digital Environment Human Behavior Laboratory [🔗](#)
 ◦ Conducted research on predictive modeling using natural language processing.

Publications

A Multi-Domain News Comment–Based Anxiety Index for Stock Price Forecasting *Sep 2025*
Junhyung Kim, Sohyun An, Daeho Lee[†]
Journal of Forecasting (Under review)

Analyzing Political Bias in Korean Online Communities Using a Sentiment Analysis Model Based on Soft Voting of KcBERT and KcELECTRA *Jun 2025*
Junhyung Kim, Jihwan Chun, Sungjun Ha, Changi Choi, Daeho Lee[†]
International Telecommunications Policy Review (ITPR)

* Equal contribution. † Corresponding author.

Honors & Awards

Director's Award, Center for Innovative Higher Education, Sungkyunkwan University, Research Paper Competition *Jan 2026*
Co-Deep Learning Project, 2025

- Authored a research paper on a reliability-aware LiDAR–Camera BEV fusion method for robust 3D object detection under diverse driving conditions.
- Awarded 3rd place

Best Paper Award, Conference Paper Competition *Dec 2025*
Fall Conference of the Korean Regional Science Association (KRSA), 2025

- Authored a research paper on residents' perception differences according to social mix housing allocation strategies.

- Awarded 1st place

President's Award, Korea University AI Academic Society, AI Competition
Datathon of the National Center of Excellence in Software, Korea University, 2025

Nov 2025

- Developed a video summarization model using an ensemble of Global-to-Local and Local-to-Global attention mechanisms.
- Awarded 2nd place

Dean's Award, College of Education, Sungkyunkwan University, AI Hackathon
5th Sungkyunkwan University AI Hackathon, 2025

Oct 2025

- Developed a high-fidelity tax advisory AI system integrating retrieval-augmented generation and self-rewarding large language model techniques.
- Awarded 5th place

Excellence Award, Korea Energy Agency (KEA), AI Competition
Power Consumption Forecasting AI Competition, 2025 [🔗](#)

Sep 2025

- Developed a large-scale electricity forecasting architecture combining hierarchical seasonal analysis and cluster-based representation learning. [🔗](#)
- Awarded 2nd place out of 937 teams (Top 0.2%)

President's Award, Institute for Information & Communications Technology Planning & Evaluation (IITP), AI Competition
SW-Centered University Digital Competition: AI Sector, 2025 [🔗](#)

Aug 2025

- Developed a multi-phase AI system for detecting LLM-generated text, integrating document-to-paragraph self-distillation and LLM-based data augmentation. [🔗](#)
- Awarded 3rd place out of 271 teams (Top 1%)
- Winner of the Popularity Award

Chairman's Award, DB Kim Jun Ki Cultural Foundation, Research Paper Competition
15th DB Insurance & Finance Contest, 2025 [🔗](#)

May 2025

- Authored a research paper applying sentiment analysis to bond investment behavior.
- Awarded 5th place out of 546 teams (Top 0.9%)

Commissioner's Award, Korea Intellectual Property Office, Idea Competition
National Defense Conundrum Solution Idea Competition

Aug 2023

- Designed an AI-based system for mitigating acoustic noise in naval propulsion and maneuvering.
- Awarded 1st place

Scholarship

Presidential Science Scholarship, Engineering
President of the Republic of Korea

Mar 2025 - Present

- Selected as one of 60 outstanding science and engineering students nationwide to receive full-tuition support and research funding.

Academic Excellence Scholarship for 2024 Spring Semester
College of Computing and Informatics, Sungkyunkwan University

Aug 2024

- Achieved a 4.50/4.50 GPA for 17 Credits.

Student Success Scholarship (Leader)
Sungkyunkwan University

Feb 2024

- Granted in recognition of leadership, initiative, and student engagement.

YulGok Scholarship
Sungkyunkwan University

Mar 2023 - Feb 2025

- Awarded for 4 consecutive semesters based on outstanding academic achievement at admission.
